## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 11-22 are allowed.

The following is an examiner's statement of reasons for allowance: The applicant has distinguished the instant invention from the prior art of reference in the amendment filed 3/9/2004, therefore the rejection of claims 11-19 as being obvious in view of Tichner is withdrawn. Additionally, it would not have been obvious to one of ordinary skill in the art at the time the invention was made to practice the instant method for mechanical working of metals, since none of the available prior art references cited teach or suggest a composition comprising the phosphate ester of formula (I) or (II) with the succinic acid of formula (III), as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
